

*Tanya Wright*

**Yuma County GOP 1st Vice Chair**

Tanya was born and raised in Mexico. She attended American schools growing up. She came to the United States to attend university at the age of 17. There, she majored in Elementary Education (K-8th), minored in French and her Master's degree is in School Administration (both public and private). Later, she got certified in The Montessori Method. She taught in public, private and international schools for a decade before she married a Special Forces service member (ARMY) and became a mother to two children. She's proud to be an American citizen and classically homeschools her son and daughter for over a decade now, teaching them the value of their rights and freedoms in this country. Tanya loves teaching children in their homeschool groups, writing educational books, coaching adults in The Montessori philosophy of education and/or homeschooling and anything relating to education, civics and politics.

She also enjoys public speaking and activating her Yuma community to make it a better place. From getting involved in the local schools to the public libraries, she is open to collaborate with leaders to improve Yuma county. She also co-hosts a conservative radio show once a week.

Additionally, Tanya is a business owner. She has a homeschool website, a Montessori website and shares a business with her husband in the hospitality industry. A few fun facts, she has traveled to 23 countries, has lived in five of those, speaks five languages and is currently learning three more.

Her main goal as the Yuma County GOP First Vice Chair is to improve the functionality of the party locally by improving communication tools (website, email, social media, etc) and training for Precinct Committeemen (PCs). She has devised a plan to fill every open PC seat, strengthen our PC base and mobilize everyone to help with elections.

Part of that goal involves appointing PC captains, setting up committees and reaching out to different groups of voters (young conservatives, independents, Hispanics, etc). The bottom line is to win the 2024 elections through hard work, unity and a strong connection with our Yuma community.
